---

Instalasi WINE pada Centos 6.5 melalui beberapa step seperti pada tutorial dibawah ini :

1. Download the latest epel-release rpm from (a) <http://dl.fedoraproject.org/pub/epel/6/SRPMS/epel-release-6-8.src.rpm> (b) <http://dl.fedoraproject.org/pub/epel/6/i386/epel-release-6-8.noarch.rpm>

2. Install epel-release rpm: `# rpm -Uvh epel-release*.rpm`

3. Install epel-release rpm package: `# yum install epel-release #yum list all; #yum update all; #yum install wine* -y;`
